NOTIFICATION.

No. 3.—In connexion with the selection of Indian candidates for admission to the Royal Military College, Sandhurst, with a view to their qualifying for King's Commissions in the Indian Army, it is proposed to hold an entrance examination in Simla on the 24th September 1923, for the term commencing at Sandhurst in February 1924. The following information is published for the use of intending candidates:—

(1) Candidates must be between the ages of 18 and 20 on the 1st January 1924 and must state their age *definitely*.

(2) Candidates are required to furnish a declaration which must be signed by their parents or guardians, to the effect that it is their intention to make the Army their permanent profession.

(3) Candidates must be prepared to pass a qualifying examination the detailed syllabus of which is printed as an appendix to this notification. The general educational standard required is that prescribed for the diploma of the Chiefs Colleges, a school-leaving certificate recognized by a Local Government, the Matriculation examination of an incorporated University or any higher examination.

(4) Candidates will, in addition, undergo a special test consisting of an oral examination conducted on similar lines to the Admiralty Test for the Royal Naval College. This examination which is designed to test the intelligence and general knowledge of candidates will be conducted by a Board of officers.

(5) A medical examination, according to the standard laid down in Appendix 18 of the Regulations for the Army Medical Service, 1908, will also be held in Simla. Candidates should attach to their applications a medical certificate from a *competent medical officer* to the effect that they come up to the standard mentioned above.

(6) The cost of a first-class railway fare from their homes and back will be granted to candidates attending the medical and qualifying examinations in Simla.

Candidates finally nominated to join the Royal Military College, Sandhurst, will also receive the cost of one first-class fare from their residence to the port of embarkation, in India, and a first-class passage by sea to England.

Applications for railway fares should be made to the Private Secretary to His Excellency the Governor of Madras.

Passages by sea for candidates selected for admission to the college will be arranged by the Embarkation Commandant, Bombay, under orders from Army Headquarters.

Selected candidates will be sent to England in charge of a British officer, who will be appointed by Army Headquarters and who will meet the candidates at Bombay. Each candidate will hand over to this officer at Bombay the sum of Rs. 300 to cover the cost of expenses incurred during the voyage to England.

(7) The ordinary fees for cadets at the Royal Military College, Sandhurst, for two years are as follows :—

(*a*) *For a King's Indian Cadet*—as may be arranged by the Secretary of State for India in Council.

For the son of—

	£ Per annum.
(*b*) A private gentleman	100
(*c*) An officer or soldier who has died whilst on full pay, half pay, retired pay or pension, and whose family has been left in pecuniary distress (subject to the approval of the Secretary of State for India).	40
(*d*) A deceased officer of whatever rank, whose widow is, or would have been, if living, eligible for pension.	55
(*e*) A soldier who is serving, or who died while serving, with the colours, or who was discharged either on account of ill-health caused by the service, or after at least twenty years' colour service.	55
(*f*) An officer who is (or, if deceased, was at the time of his death) on the active list holding rank below the substantive rank (as regards combatant, medical, dental and veterinary officers) or the rank (as regards officers holding honorary King's Commissions as Lieutenants and Captains) of Lieutenant-Colonel in the Indian Army.	65
A retired officer who last served in a rank below the above-mentioned ranks, and retired with not less than twenty years' service or on account of age, non-employment, or ill-health caused by the service, or on reduction of establishment.	55

A retired officer who last served in any of the above ranks and retired as stated in (*f*).	80
(*h*) A serving or retired officer not otherwise specially provided for ..	200

If the father of a cadet is promoted, or retires, the rate of contributions will be altered accordingly.

The above fees are exclusive of contingent expenses, sundries, etc., which are as follows :—

	£
Contingent account for four terms	100
Pocket money at £3 per mensem	72
Thirty weeks' vacation at about £5 5s. a week	157
Extra pocket money during vacation at £3 3s. a week	95
Sundries, say	136
Total	560

(8) The sum for sundries includes additional expenses during the vacations, such as travelling and entertainments. The expenses of cadets will as far as possible be kept within the above limits, but the parents or guardians of cadets must be prepared to pay any excess over these amounts.

(9) The above estimate does not provide for European kit on arrival in England other than the amount required for college uniform; for the purchase of European kit an additional sum of from £100 to £200 should be provided. Neither does this estimate include anything for the cost of outfit on being commissioned from the college.

(10) The Local Government will recover from parents or guardians punctually in advance at the beginning of each year of the Sandhurst course one-half of the total estimated expenditure for two years and pay it into the local Treasury with full details in each case and with instructions that the credits should be passed to the Secretary of State for India through the outward London Account Current. No cadet will be allowed to pursue a term at the College until the fees for that term have been paid.

(11) An allowance of 4s. a day, in aid of the expenses of messing, washing, and other contingencies, will be admitted as a charge against the public for each cadet so long as he is in residence at the Royal Military College. All other necessary expenses which cannot be covered by this allowance shall be chargeable to the parent or guardian of a cadet.

(12) If a cadet is absent a whole term in consequence of rustication, a payment of £10 shall be required in lieu of the half-year's contribution for the privilege of his name being kept on the rolls of the establishment, and for a vacancy being kept open at the commencement of the next term.

(13) If a cadet is rusticated or removed during a term, his daily allowance shall cease from the date of such rustication or removal, and the contribution made for the half-year shall be forfeited, unless otherwise specially decided by the Army Council.

(14) If a cadet is absent from sickness during a portion of the term, his allowance shall continue to be issued and credited to his account. In exceptional cases a refund of the contribution for the period of absence, may be authorized by the Commandant, and in such cases the cadet's allowance shall cease for the period of the refund.

(15) Indians selected for cadetships will be subject to such rules and regulations as are, or may be, from time to time, established for the maintenance of good order and discipline at the college.

They will, while at the Royal Military College, belong to the ordinary College Mess and no special messing arrangements can be made on their behalf.

Indian cadets are required to appear at all times in the uniform of the college except when on leave or when otherwise exempted by the Commandant, but they will be allowed to wear their national head dress should they so desire.

They will not be allowed to take servants or personal attendants of any kind to the college.

(16) One of the rules for admission to the Royal Military College is that a cadet should be unmarried. This rule will be waived in the case of Indian candidates, but in no circumstances will a cadet be allowed to take his wife or family to England.

(17) The normal length of the course of instruction will be about two years divided into four terms. The college terms will be—

Spring term.—From about beginning of February to about middle of July.

Autumn term.—From about beginning of September to about middle of December.

The intermediate periods will constitute the vacations.

(18) Cadets from India will have to qualify in the ordinary passing out examination and will, on qualifying, be eligible for King's Commissions. Before being passed as fit for a commission, they must be certified to be in good mental and bodily health and free from any physical defects likely to interfere with the performance of their military duties. Those who are successful in obtaining commissions will enter the Indian Army as Second Lieutenants.

(19) Unless a Government building is available, candidates will be provided with private accommodation usually in a hotel at Simla. Candidates will be charged for messing, but the cost of the rent of the quarters will be borne by Government. Suitable arrangements will be made for those candidates who are precluded, by caste, from eating the food provided.

Candidates may arrange for quarters in the hotel other than those provided, but they will be liable for any additional cost incurred. Candidates will on no account be allowed to live elsewhere.

Parents or guardians must ensure that candidates are provided with sufficient funds to meet the cost of their expenses while in Simla.

(20) The Private Secretary to His Excellency the Governor of Madras, to whom applications should be made not later than 3rd August, will intimate to the selected candidates the fact of their selection. No application received after the 3rd August will be considered.

CUSTOMS DUTIES.

Simla, the 30th June, 1923.

No. 630.—In exercise of the powers conferred by section 23 of the Sea Customs Act, 1878 (VIII of 1878), the Governor General in Council is pleased to direct that the notification of the Government of India in the Finance and Commerce Department No. 1051, dated the 12th April 1907, be cancelled.

LEAVE AND APPOINTMENTS.

Simla, the 28th June, 1923.

No. 1644 F. E.—It is hereby notified for general information that an examination will be held in December 1923 for the selection of probationers to fill one vacancy in the Indian Audit and Accounts Service and two vacancies in the Military Accounts Department. An appointment in the latter involves a definite liability for service in any part of India, including Burma, as well as for field service both on and out of India, and candidates will have to sign a definite undertaking to this effect before being appointed. Only those candidates who have been nominated by the Government of India in the Finance Department will be allowed to compete at the examination. The place and date of commencement of the examination will be announced later.

No. 152.—The following Circular letter is published :—

From W. D. WOOLLAR, Esq., Accountant-General, Madras, to all Heads of departments, all Treasury Officers, all Conservators of Forests, dated Fort St. George, the 6th July 1923, No. T.M. 24-40-5394.

In continuation of this office Circular No. T.M. 24-40-3642, dated the 1st February 1923, issuing certain audit instructions necessitated by the deletion of the words 'plus one year' from the third sub-paragraph of sub-clause (ii) of clause (*b*) of Rule 81 of the Fundamental Rules, I have the honour to issue the following further instructions :—

(1) In those cases in which the option to revert to the old rules has been exercised the reversion to the old rules should take effect from the date on which the Government servant became subject to the leave rules in the Fundamental Rules; in other words, the Government servant cannot have leave for a portion of his service under the Fundamental Rules and then under other rules and any leave taken under the Fundamental Rules should be commuted into leave that would otherwise be admissible under the old rules.

(2) So far as Government servants who have not elected to revert to the old rules but remain under the Fundamental Rules are concerned, there will be cases in which the leave on average pay taken in India or Ceylon after 1st January 1922 without production of medical certificate was in excess of the amount of privilege leave due on 31st December 1921 and 1/11th duty thereafter. The excess should in such cases be treated as 'leave on average pay' although the conditions mentioned in the proviso in Fundamental Rule 81 (b) (ii) were not fulfilled and need not be debited to 'B Account.' It should be taken against the extra 'one year.'

(3) As regards Government servants who have reverted to the simplified leave rules which were introduced on the 24th July 1920, the excess over the privilege leave, that would have been admissible if the Government servant had not elected the Fundamental Rules should, on the analogy of the concession allowed to Government servants who remain subject to the Fundamental Rules, be treated as 'Furlough on average salary' although the conditions laid down in Government of India, Finance Department, Resolution dated the 27th November 1920, may not have been fulfilled. No adjustment of leave-salary on the basis of three years' average is, however, necessary.

(4) As regards Government servants who have reverted to the leave rules which were in force prior to the 29th July 1920, such cases of excess over privilege leave should be referred to this office with full details of the Government servant's service and of leave taken during the service.

(5) In the case of Government servants who revert to the old leave rules, the position will be the same as in the case of the Government servants who never elected the leave rules to the Fundamental Rules. The allowance during privilege leave will be regulated by the rules in article 261 *et seq* of the Civil Service Regulations and for purposes of these rules 'the salary which he would receive if he were on duty in the appointment on which he has a lien' will be determined with reference to articles 210, 30 and 60 of the Civil Service Regulations. But such Government servants will not be entitled to count the period of privilege leave for increments in an officiating appointment even though they may resume charge of the officiating appointment on return from privilege leave

20. The Returning Officer shall select for each constituency as many polling stations as he thinks necessary and shall appoint a presiding officer for each polling station and such other persons (hereinafter referred to as polling officers) to assist the presiding officer as he thinks necessary.

21. The presiding officer shall keep order at the polling station, shall see that the election is fairly conducted, shall regulate the number of electors to be admitted at one time, and shall exclude all other persons except—

23. (1) The presiding officer shall close the polling station at the hour appointed for closing under regulation 12 and 18, so as to prevent the admission thereto of any elector after that hour.

(2) No ballot paper shall be issued after that hour but any elector who has received his ballot paper before that hour shall be allowed a reasonable opportunity to record his vote.

24. Each polling station shall be furnished with such number of compartments in which electors can record their votes screened from observation, as the Returning Officer thinks necessary. As far as practicable, separate compartments and separate entrances and exits shall be provided for women electors.

25. The Returning Officer shall provide at each polling station materials sufficient for the purpose of enabling electors to mark the ballot papers as many ballot boxes as may be necessary, and copies of the electoral roll or of such part thereof as contains the names of the electors entitled to vote at such station.

26. (1) Every ballot box shall be so constructed that the ballot papers can be introduced therein but cannot be withdrawn therefrom, without the box being unlocked. The presiding officer at any polling station, immediately before the commencement of the poll, shall show the ballot box empty to such persons as may be present at such station, so that they may see that it is empty, and shall then lock it up, and place his seal upon it in such manner as to prevent its being opened without breaking such seal, and shall place it in his view for the receipt of ballot papers and keep it so locked and sealed.

(2) Before the polling station is open for the recording of votes, the presiding officer shall read to such persons as may be present the provisions of section 11 of the Election Offences and Inquiries Act, 1920, and shall explain the substance thereof to the vernacular of the district.

27. (1) Every ballot paper shall be in Form III and shall have the names of the candidates as they appear in the nomination papers arranged in alphabetical order. If there are two candidates whose names are the same, they shall be distinguished by the addition of their occupations or in some other way. Ballot papers shall be printed in such language or languages as the Local Government may by an order direct.

(2) The ballot papers printed in each language shall be serially numbered, the serial number being printed on the face of the counterfoil and on the back of the ballot paper.

28. Immediately before a ballot paper is delivered to an elector, the number, name and description of the elector as stated in the electoral roll shall be called out, and the number and name of the elector shall be entered on the counterfoil. The presiding officer shall then initial the ballot paper on its back and deliver it to the elector, and a mark shall be placed on a copy of the electoral roll against the number of the elector, to denote that he has received a ballot paper, but without showing the particular ballot paper which he has received. On the counterfoil shall be entered the name of the constituency and the name or distinctive number of the polling station.

29. The elector, on receiving the ballot paper, shall forthwith proceed into one of the compartments in the polling station, and there mark his paper, and fold it up so as to conceal his vote and after showing to the presiding officer his (i.e., the presiding officer's) initials thereon shall put his ballot paper so folded up into the ballot box. Every elector shall vote without undue delay and shall quit the polling station as soon as he has put his ballot paper into the ballot box.

24. (1) If the elector is unable to read the ballot paper or to mark it and applies for assistance in doing so, the presiding officer shall read it for him and if so required mark the ballot paper according to the directions of the elector and give it to him to be put into the ballot box.

(2) In the case of every elector whose ballot paper is marked in this manner by the presiding officer a note shall be made on the corresponding counterfoil of Form III by the presiding officer of the reasons why it was so marked.

25. (1) When a person presents himself to vote and at any time before a ballot paper is supplied to him the presiding officer or polling officer may, of his own accord, and shall if so required by a candidate or polling agent, put to such person any or all of the following questions:—

(i) Are you the person enrolled as follows (reading the whole entry from the roll)?

(ii) Have you already voted at the present election in this constituency?

and at a general election—?

(iii) Have you already voted at this general election for the Legislative Council in any other general constituency?

and the person shall not be supplied with a ballot paper unless he answers the question or questions put to him and unless his answer to the first question is in the affirmative, the second question in the negative, and on a general election the third question also in the negative.

(2) Except as mentioned herein, every person whose name is found on the electoral roll shall be entitled to be supplied with a ballot paper.

26. If a person representing himself to be a particular elector named on the electoral roll applies for a ballot paper after another person has voted as such elector, the applicant shall, after duly answering such questions as the presiding officer may ask, be entitled to receive a ballot paper in the same manner as any other elector. Such ballot paper (hereinafter referred to as a tendered ballot paper) shall be of a colour different from the other ballot papers, and, instead of being put into the ballot box, shall be given to the presiding officer and endorsed by him with the name of the elector and his number on the electoral roll and the name or number of the electoral area to which the roll relates and shall be set aside in a separate packet and shall not be counted by the Returning Officer. The name of the elector and his number in the electoral roll and the name or distinctive number of the polling station to which the roll relates shall be entered in a list in Form IV annexed to these regulations, which shall bear the heading 'Tendered votes list'. The person tendering such ballot paper shall sign his name and address on that list or affix his thumb impression thereto.

27. If any polling agent declares and undertakes to prove that any person by applying for a ballot paper has committed the offence of personation, the presiding officer may require such person to enter in the list of challenged votes which shall be in Form V annexed to these regulations) his name and address, or, if he is unable to write, to affix his thumb impression thereto and may further require such person to produce evidence of identification. If such person on being questioned as the manner provided in regulation 24 answers the first question in the affirmative and the other questions in the negative, he shall be allowed to vote after he has been informed of the penalty for personation. The presiding officer shall make a note of the circumstances and of his decision on the list of challenged votes.

28. An elector who has inadvertently dealt with his ballot paper in such a manner that it cannot conveniently be used as a ballot paper may, on delivering it to the presiding officer and satisfying him of the inadvertence, obtain another ballot paper in place of the spoilt paper, and the latter shall, together with its counterfoil, be marked as cancelled.

29. A presiding officer, polling officer, or polling agent who is on duty at a polling station at which he is not entitled to vote shall, if he is certified by the Returning Officer of the constituency concerned to be entitled to vote at the election, be allowed to record his vote at that polling station. The name of the polling station at which he would otherwise have been entitled to vote shall be entered in the counterfoil of the ballot paper together with the other particulars to be entered therein.

30. (1) Such ballot paper shall be placed in an envelope and sealed by the presiding officer and returned with the certificate referred to in regulation 29 to the Returning Officer who has granted the same, and such Returning Officer shall cause such vote to be included among the other votes given for the candidate designated by the elector.

(2) The certificate referred to in regulation 29 shall be in the following form:—

33. Subject to any directions given in that behalf by the Returning Officer, the packets and statements shall be forwarded by the Presiding Officer to the Commissioner of the Corporation of Madras in the Madras city and to the divisional or taluk officer in the mofussil. Each packet shall be numbered and shall bear a note as to its contents and the name of the polling station. Empty boxes need not be sent but should be handed over to the village headman or such other officer as the Returning Officer may direct. Where no vote has been recorded in any constituency, the presiding officer shall submit a nil report together with the statement in Form VI. The Commissioner of the Corporation of Madras or the divisional or taluk officer, as the case may be, shall forward to the Returning Officer, immediately on receipt from all the polling stations in the city, division or taluk, the packets referred to in regulation 31 together with a statement in Form VII which shall be compiled from the statement in Form VI and from the nil reports received from the presiding officers.

Postal voting.

34. Regulations 35 to 43 shall apply to the eight constituencies excepted by regulation 11. No elector of these constituencies shall be allowed to vote in any other way than in provided in these regulations.

35. Not less than fifteen clear days before the date fixed for the poll, the Returning Officer shall issue through the post a declaration paper and a voting paper to each elector to the address entered against his name in the electoral roll, unless the elector has, since the publication of the roll, changed his address and intimated the fact in writing to the Returning Officer.

36. The declaration and voting paper shall be in Form VIII. It shall be printed in such languages as the Local Government may by an order direct. The same serial number shall be entered on the face of the declaration paper and on the back of the voting paper. To each elector shall be issued the declaration paper and the voting paper whose serial numbers correspond to the number which the elector bears on the electoral roll.

The Returning Officer shall have the number of the voting paper entered at the left-hand bottom corner of the cover in Form IX.

39. Each elector, upon receipt of his ballot papers, if he desires to vote in the election, shall sign the declaration in the declaration paper and record his vote on the voting paper by placing a mark against the name of the candidate or candidates of his choice.

40. The elector shall then enclose the voting paper in the envelope and stick it up and enclose the envelope and the declaration paper in the cover and send the cover by registered post to the Returning Officer so as to reach him not later than the day and the latest hour fixed for the poll. The covers received after such day and hour shall be rejected :

Provided that, at his option, the elector may deposit the cover in a ballot box which shall be provided at the office of the Returning Officer on the day and during the hours fixed for the poll.

41. (1) If an elector is incapacitated from blindness or other physical cause, from voting in the manner prescribed above, it shall be competent for him to record his vote by the hand of any of the officers or other person mentioned hereunder : and such officer or other person shall, on the declaration paper, certify the incapacity and attest the fact of his having been requested by the elector to mark the voting paper for him, and of its having been so marked by him in the presence of the elector.

(2) The following officers or other persons are empowered to attest votes of incapacitated electors under this regulation :—

(i) District and taluk board members and municipal councillors.

In every case when new ballot papers are issued, a mark shall be placed against the number of the elector's name in the roll to denote that new ballot papers have been issued in place of those not received, spoilt or lost.

Counting of Votes.

44. The Returning Officer shall, as soon as may be practicable after the close of the poll, appoint a date which shall be not later than seven days from the date of the poll, and the time and place for the counting of votes and shall give notice in writing thereof to all candidates and election agents.

45. (1) No person shall be allowed to be present at the counting of votes except the Returning Officer and such persons as he may appoint to assist him in counting the votes, and such other persons as have a right to be present under sub-rule (8) of rule XII.

(2) No person shall be appointed to assist in counting the votes, who has been employed by or on behalf of any candidate for any purpose whatsoever connected with the election.

46. On the day and at the time appointed under regulation 44 the Returning Officer shall, before he commences to count the votes, read the provisions of section 14 of the Indian Election Offences and Inquiries Act, 1920, to such persons as may be present, and shall then proceed as follows:—

(a) (i) If the constituency is one in which the voting is personal, the ballot box or boxes relating to each polling station or the envelopes containing votes under regulation 39 shall be opened one after another, and the Returning Officer shall take out the papers therefrom, count them or cause them to be counted, and record the number thereof in a statement. Such statement shall not be shown to any candidate or agent.

(ii) If the constituency is one in which postal voting is allowed, the covers received from or deposited by voters shall be opened one after another and the envelopes and declaration papers taken out therefrom. The Returning Officer shall then examine whether the declaration paper is the one sent out by him and whether the declaration and attestation are prima facie regular. If he is not satisfied that a declaration paper is the one sent out by him to the voter concerned or if the declaration or attestation is not in order, he shall endorse the word "rejected" on the back of the declaration paper and keep it with the connected envelope in a separate bundle. He shall file the other declaration papers and the envelopes containing the corresponding voting papers in a separate heap. These envelopes shall then be opened, the papers enclosed therein taken out and counted, and the number thereof recorded by the Returning Officer in a statement.

(b) The Returning Officer shall then mix together all the ballot papers as counted and detailed up and distribute them in convenient bundles to the persons appointed to assist in counting the votes.

(c) When the ballot papers have been so distributed, but not before, the Returning Officer shall allow the candidates and their agents, reasonable opportunity to inspect, without handling, the ballot papers, and shall on every ballot paper which is wholly or partially rejected endorse the word "rejected". If any candidate or agent present questions the correctness of the rejection, he shall also record on the ballot paper the grounds for the rejection. No candidate or agent shall be allowed to see the serial number on the back of any ballot paper.

(d) The Returning Officer shall, as far as practicable, proceed continuously with the counting of the votes and shall, during any necessary intervals during which the counting has to be suspended, place the ballot papers, packets and other documents relating to the election under his own seal and the seals of such candidates, or agents as may desire to affix them, and shall cause adequate precautions to be taken for their custody.

47. (1) A ballot paper shall be rejected if—

(a) the number of votes recorded thereon exceeds the number of vacancies to be filled,

(b) no vote is recorded thereon,

(c) it is void for uncertainty,

(d) it bears any mark by which the elector can be identified, and

(e) in the case of a postal vote, the Returning Officer is not satisfied that the declaration paper is the one sent out by him to the elector, or if the declaration or attestation is not in order.

Provided that in a case where more than one vote can be given on the same ballot paper, if one of the marks is so placed as to render it doubtful to which candidate it was intended to apply, the vote concerned but not the whole ballot paper shall be invalid on that account.

(2) Except on the above-mentioned grounds a ballot paper shall not be rejected.

(3) The decision of the Returning Officer as to the validity of a ballot paper shall be final, subject only to reversal on an election petition.

48. The following procedure shall apply to constituencies other than those for which postal voting is allowed:—

The Returning Officer shall not open the sealed packets of the tendered votes, the marked copy of the electoral roll or the counterfoils of the ballot papers. He shall verify the statement submitted by the presiding officer under regulation 42 by comparing it with the number of counted votes and rejected ballot papers, the unused ballot papers in his possession and the tendered votes list, shall then reclose and reseal each packet which has been opened by him, and shall record on each packet a description of its contents and the date of the election to which it relates.

49. The following procedure shall apply in the case of postal vote constituencies.—

(2) the rejected declaration papers and connected envelopes;

(3) the voting papers rejected at the count;

(4) the file of declaration papers; and

(5) the marked copy of the electoral roll.

He shall also prepare and sign a statement in Form XI and shall record on each packet a description of its contents and the date of the election to which it relates.

50. The Returning Officer shall then prepare and certify a return in Form XII setting forth—

(1) the result of the verification referred to in regulation 48,
(2) the names of the candidates for whom valid votes have been given,
(3) the number of valid votes given for each candidate,
(4) the name of the candidate elected,
(5) the number of votes declared invalid, and
(6) the number of tendered votes given,

and shall permit any candidate or any representative duly authorized under sub-rule (3) of rule XII to take a copy or an extract from such return.

Miscellaneous.

51. (1) The Returning Officer shall, after reporting the result of the election under rule XII forward a copy of the return made under regulation 50 to the Secretary to Government, Law (Legislative) Department, who shall thereupon publish in the Gazette the name or names of the candidates elected.

(2) All the packets relating to the elections shall, subject to the control of the Local Government, remain in the custody of the Returning Officer.

52. The packets of ballot papers whether counted, rejected or tendered, and of the counterfoils thereof, or of the declaration papers as the case may be shall not be opened and their contents shall not be inspected or produced except under the order of a competent Court or of Commissioners appointed to hold an inquiry in respect of an election, but all other documents relating to the election shall be open to inspection subject to such conditions as the Local Government may impose and to the payment of a fee of Re 1.

No. 194.—The following Press Communiqué of the Government of India is republished :—

DEPARTMENT OF EDUCATION, HEALTH AND LANDS (AGRICULTURE).

PRESS COMMUNIQUÉ.

Simla, the 22nd June 1923.

In relation to the Provincial Agricultural Colleges the Agricultural Research Institute and College at Pusa occupies the position of a higher teaching institution in enabling students by means of post-graduate courses of the highest possible standard to qualify for the best appointments in the various branches of agricultural work not only in India but in the neighbouring colonies. The position of the Pusa Institute and College was examined by the Royal Mission on the Public Services in India and it was recommended that (1) Pusa should be maintained principally for research work, and (2) facilities should be provided at the Research Institute for the training of post-graduate selected students in agricultural research up to the highest standard provided by the best equipped agricultural institutions of Europe and America, such additions being made to the staff of that institutions as might be necessary for the purpose. A scheme for the expansion of the institute to provide training on a larger scale both for direct recruitment and promotion to the Imperial Service has been sanctioned by the Secretary of State, but the depressed condition of the Imperial finances makes the immediate realisation of the full scheme impossible. Excellent facilities however exist at Pusa for a complete training in several branches of Agricultural Science, such as, Agricultural Chemistry, Botany, Mycology, Agricultural Bacteriology and Entomology and since its establishment the Pusa Institute has given post-graduate training in these specialised branches to 131 students, besides affording laboratory facilities to 26 scientific

research workers for short periods. Most of these students who have undergone the post-graduate training were deputed by local Governments and Indian States and many of them have been absorbed in their respective agricultural departments, a few in the Indian Agricultural Service cadre and the rest in the Provincial Services.

2 With a view to develop the post-graduate training at Pusa to the highest possible standard so that Indians who wish to enter the Indian Agricultural Service may be afforded facilities comparable with those available to European students, the prospectus of the Pusa Institute has been under revision. The revised draft was considered by a special conference held at Pusa in February 1922 and it was recommended that admission to these post-graduate courses in special subjects should be strictly limited to post-graduate students who may be,

(1) students who have passed with distinction through the course of a Provincial Agricultural College and are recommended by their local Governments,

(2) graduates in Science from an Indian University who should preferably, subsequent to taking their degree, have spent at least one year at an agricultural college and who are recommended by the Director of Agriculture of the Province as likely to profit by the course of instruction which they propose to follow.

(3) students deputed by an Indian State who may be admitted on the application of the State concerned, provided they have the qualifications indicated above, and that accommodation is available.

The Conference was also of opinion that a two years training under the specialists would form a suitable qualification for admission to the Indian Agricultural Service. It was however considered that what was wanted was more the association of the post-graduate students with the research work in progress rather than a hard and fast course of instruction and that it must be left open to the head of the section concerned to frame the course of instruction so as to suit individual requirements and afford all facilities for conduct of research.

The Government of India have accepted these recommendations with slight modifications and have decided to start these courses in the next cold weather commencing from 1st November 1923, and to throw them open to distinguished graduates of universities or agricultural colleges and also to students who have undergone training in agriculture and its allied branches in British Universities or in one of the recognised agricultural colleges and who possess suitable qualifications. Candidates for admission will appear before a responsible selection committee and only those who are likely to be able to make the most use of the courses will be selected. As a start it is proposed to admit 12 students to these post-graduate courses commencing on 1st November 1923, viz., 3 in Agricultural Chemistry, 2 in Mycology, 3 in Entomology, 2 in Agricultural Bacteriology and 2 in Botany. For further particulars regarding the courses, fees chargeable, etc., application should be made to the Director and Principal, Agricultural Research Institute and College, Pusa. All applications for admission must reach that officer before 1st October next.

It must however be pointed out that the Government can give no guarantee of employment, and that the number of specialists appointments in the Indian Agricultural Service cadre taken under the Imperial and Provincial Government is very limited, the annual rate of recruitment to these research posts being less than one a year.

Fort St. George, July 9, 1923 (G.O. No 878, W).

In the report of the Public Accounts Committee, dated 1st February 1923, on the Audit Report (Public Works Department portion) for the year 1921–22, it is brought to notice that, though there was a decrease in the total volume of irregularities during the year, yet the percentage of works started "without estimate" and of works on which there was "excess over estimate" was high especially in the Buildings and Roads branch. They also note that general instructions have from time to time been issued objecting to such irregularities and that in individual cases warnings also were generally given. The Committee doubt whether more warnings are sufficient and consider that, when loss of Government money occurs, owing to breach of rules, the loss should be recovered from the officers concerned. They further consider that agreements entered into with contractors and pieceworkers should be strictly enforced and that revision of rates once agreed upon should not be allowed except in very special circumstances.

(1) G.O. No. 30 W., dated 7th January 1920.
(2) G.O. No. 863 W., dated 25th June 1920.
(3) G.O. No. 1207 W., dated 22nd July 1920 (Orders on items 12 (b) and (c).]
(4) G.O. No. 1339 W., dated 3rd September 1920 [Orders on item 5 (b).]
(5) Paragraphs 92, 245, 257 and 280 of the Public Works Department Code, 10th edition.
(6) Chief Engineer's circular Memorandum No. 7199-C., dated 2nd November 1921.

2. With reference to the above remarks and suggestions, the attention of all officers of the department is drawn to the marginally noted orders and rules and they are warned to observe rigidly and scrupulously the following rules :—

(1) No work should be started until an estimate and an agreement with the contractor have been sanctioned by competent authority and when there is no provision of funds for the purpose.

(2) In cases of extreme emergency or other very special circumstances, however, a work for which an estimate has been made out or for which no financial provision or inadequate provision exists, may be started, but in such cases, the orders in paragraph 258 of the P.W.D. Code should be followed and the irregularity regularised at the earliest date. The cases which may fall under this clause should be only closing of breaches or irrigation works or such other works as are of an urgent nature.

(3) The orders in clause (2) above should not be taken as an authority to start a work, however urgent it may be, without an agreement duly sanctioned by competent authority. It is not necessary in cases of great urgency to have an agreement covering the *whole work* but it is necessary in all such cases to have an approved agreement in the first instance covering at least the items of

work that, at the time the work is started, it is proposed to carry out. Should, however, exceptionally emergent circumstances render it absolutely necessary to start a work without even such approved agreement, an agreement must be sanctioned at least before any payment is made.

(4) If, during execution of a work, it is found probable that there will be excess over the original sanctioned estimate, on account of excess of certain rates, alteration in design, or any other cause, the fact should be reported immediately on the works slip form and the orders of the competent authority should be obtained to the deviations, etc., *before* incurring the extra expenditure. And when the excess is likely to exceed the originally estimated amount by more than 5 per cent, a revised estimate should be promptly prepared and submitted for the sanction of the competent authority.

(5) Rates higher than those specified in *accepted* agreements should not be allowed except with the sanction of the authority who approved of the original agreement. Payment of such rates is not "due" and should not therefore be allowed, as otherwise the original agreement with the contractor becomes *voidable*. If, however, the rates entered in the accepted agreement are really found to be unworkable and there exists sufficient justification for revising them, the officers concerned should *promptly* bring the matter to the notice of the competent authority, have the original agreement cancelled and a revised one providing for the higher rates sanctioned *before* making *payment* at the higher rates. The sanctioning authorities should not pass the higher rates except in very special circumstances.

(6) Whenever a revised agreement providing for higher rates is sanctioned, the increased rates should have effect only from the date of execution of the revised agreement unless, *for very special reasons*, it is specifically stated by the sanctioning authority that they should have retrospective effect.

Should an officer infringe any of the above rules, severe disciplinary action will be taken against him. Further, if loss of Government money occurs, owing to breach of any of the rules, the amount of such loss will, as suggested by the Public Accounts Committee, be recovered from the officers concerned.

3. In their report referred to above, the Public Accounts Committee also express a doubt as to whether the supervision and control of superior officers is always adequate. They further note that there are plenty of rules but that what is wanted is to see that they are obeyed. The Committee suggest therefore that some regular scheme should be worked out by Executive Engineers and Superintending Engineers which would ensure that regular and early action is taken to detect irregularities and take suitable action whenever they come to notice. The attention of Executive Engineers and Superintending Engineers in this connection draws —

(1) to the orders emphasising the necessity for frequent check-measurement of works by Executive Engineers and laying down that at least 25 check-measurements should be made by them in a year, and

(2) to the orders requiring Executive Engineers and Superintending Engineers to inspect the Sub-Division Offices and the Division Offices respectively once every year. At these inspections, all grades of officers should make it a point to examine such cases of irregularities and deal with them on the spot.

These orders should be strictly observed and Executive Engineers and Superintending Engineers should also make periodical inspections of works as much as possible with the object aimed at by the Public Accounts Committee.

Provided that before issuing or authorizing an order for such compulsory segregation, the Chairman shall provide adequate and suitable accommodation for the medical treatment of such persons.

3. Every householder and every medical practitioner shall at once report to the Chairman or the Health Officer any case of relapsing fever which may come to his notice.

4. In an infected area, the Chairman may enter upon, occupy and use or may depute any person to enter upon, occupy and use any building or place after giving the occupant 24 hours' notice in writing and shall carry out such measures, as in the opinion of the Health Officer, are necessary for thoroughly disinfecting the premises.

5. In an infected area the Chairman may, after giving 24 hours notice, require the inhabitants of any or every house in such area to attend at a disinfecting station in order that their clothes and persons may be freed from lice.

6. The Chairman may prevent any person suspected of coming from an infected area leaving the municipality unless his clothing and personal effects have been thoroughly disinfected by steam or by boiling, unless he has been pronounced by the Health Officer to be free from lice.

7. All clothing and bedding in an infected house shall be disinfected by steam or by boiling and all rags and other worthless clothing and bedding shall be liable to be burnt if found within infected houses.

Fort St. George, June 29, 1923 (G.O. No. 1492, L. & M.).

No. 634.—The Government understand that several local bodies are in the habit of sanctioning expenditure without knowing whether there is provision for it in the budget estimate or whether the amount required can be found. Ordinarily no expenditure should be incurred unless it has been provided for in the budget and it is a fundamental principle that save for exceptional reasons expenditure for which no provision has been made in the budget should not be proposed or sanctioned. The Government consider that this can be effectively watched—

(1) by requiring the Chairman or President to attach a certificate to every item of expenditure to be passed by the local body to the effect that the necessary budget provision exists or that the amount required can be found;

(2) by requiring a memorandum or note to be signed in every bill for the several classes of expenditure, as is done at present in the case of contingent bills, showing the 'head of account', 'allotment for the year', 'expenditure including this bill' and 'balance available'.

The first of the suggestions mentioned above is proposed to be given effect to by means of a rule issued under section 199 of the Madras Local Boards Act, 1920 and section 303 of the Madras District Municipalities Act, 1920—vide appendix to this order. The Examiner of Local Fund Accounts is requested to submit necessary proposals to give effect to the second suggestion.

2. The Government also understand that local bodies have not yet realised certain important principles which should be borne in mind when framing their budgets. The opening balances are very often over-estimated. The receipts are estimated on the very optimistic assumption that almost the whole of the taxes—both arrears and current—will be collected during the year, an assumption which is not borne out by the experience of previous years. The expenditure is then estimated on this assumption, with the result that expenditure is incurred *to the full extent of the budget allotment* while receipts are not realised as anticipated. The result is a heavy deficit at the end of the year. This state of things can be prevented only if local bodies bear in mind the following essential points in framing their budgets:—

(*a*) the opening balance should be as accurate as possible;

(*b*) the receipts and expenditure should be estimated at a reasonable figure *based on the experience of previous years*;

(*c*) the closing balance should provide for a sufficient working balance after meeting obligatory charges; and

(*d*) capital expenditure from general revenues should be avoided in a year of financial stringency.

It is hoped that local bodies will strictly follow the above principles in framing their budgets in future.

APPENDIX.

The following draft of a rule which the Local Government propose to issue under sub-section (1) of section 199/303 of the Madras Local Boards/District Municipalities Act, 1920 is hereby published under clause (*z*) of section 199/303 of that Act. It will be further proceeded with after six weeks after the date of publication of this notification.

Draft rule

No item of expenditure shall be passed by any Local Board/Municipal Council unless it is accompanied by a certificate in the following form:—

The amount may be met from the budget allotment of Rs. under *

Amount spent under this head up to date ... ...

Amount to be sanctioned now ... ...

Balance ...

If there is no budget provision and the Board/Council decides to find the amount by reappropriation from another head, the words 'by reappropriation' should be added after the word 'met'.

* Number and description of the head of account.

This certificate should be entered in the agenda circulated before the meeting and if accepted by the Board Council, it need not be written again as part of the resolution in the Minutes Book. If however the Board Council makes any alteration either in the amount of expenditure or in the head from which the expenditure is to be met the certificate as amended should form part of the resolution of the local body concerned.

Where there is no budget provision, the necessary reappropriation should be made by means of a supplemental budget and should be sanctioned at the same meeting or as soon thereafter as possible. Till such sanction is made, no expenditure should be incurred on the item in question.

NOTIFICATION.

INSTRUCTIONS TO CANDIDATES APPEARING FOR THE EXAMINATIONS TO BE HELD IN SEPTEMBER AND OCTOBER 1923.

Candidates for University Examinations are required to observe the following instructions very carefully:—

1. Strict silence should be maintained in the examination room.

2. Candidates should take their places in the examination hall at least five minutes before the time fixed for giving out the papers. Candidates presenting themselves more than half an hour after the appointed time will not be admitted to the examination hall. Candidates who are undoubtedly suffering from infectious diseases of any kind will not be admitted.

Candidates should bring with them to the examination hall each day of the examination their hall tickets for inspection by the Chief Superintendent.

3. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but their register numbers should be written very distinctly on the outer cover of each. Failure to write their register numbers may involve the rejection of answer papers.

4. Candidates are not allowed to exceed the time assigned to each paper.

5. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out; and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

6. Candidates are forbidden to ask questions of any kind during the examination. They are further forbidden to communicate with the examiners; should they do so, their answers will not be valued, and their conduct will be reported to the Syndicate for disciplinary action.

7. Candidates are not allowed the use of books of any kind (except as provided in rule 8). They are also prohibited from introducing into the examination room any book or portion of a book, slate, manuscript, or paper of any description, from soon commencing with or copying from each other; and from communicating with any person outside the examination room. Any candidate detected in the violation of these rules will be sent out of the room forthwith, and his conduct will be reported to the Registrar. The use of scribbling at University examinations is not permitted except to students answering papers in Mathematics. The use of mathematical instruments while answering papers in Mathematics and in the Physical Sciences will be allowed. Such instruments will not be supplied by the University.

8. Clarke's Mathematical and Physical Tables will be supplied to candidates in groups (i) and (ii) of the Intermediate, B.A. and B.Sc. Degree Examinations.

9. Candidates are required to provide themselves with their own pens. Candidates may bring into the examination hall their own ink-bottles. They must, however, use only black ink while answering their question papers.

10. Particular attention is requested to the instructions, regarding rough working and loose sheets of paper printed on the answer books. All rough working must be shown on the left hand page of the answer books themselves. No separate books for rough working will be supplied to candidates. Paper must not be detached from the answer books of candidates. If the ordinary answer books are found insufficient, additional books will be allowed and these should be securely fastened to the answer books.

11. As soon as candidates have finished writing their answers, and wish to give up their answer books, or at the end of the period prescribed for each particular part of the examination, each should stand up in his place and remain standing until one of the superintendents has gone up to him and received his answer book from him.

12. Communications to the Registrar from candidates requesting information relating to the results of examinations will not receive attention until after the publication of the results in the *Fort St. George Gazette*. Successes or failures, however, will be communicated by telegraph, if prepaid.

The hall tickets of candidates sitting for the examinations at Madras will be ready for distribution at the Senate House four days before the date of each examination. Candidates sitting for the examinations at centres other than Madras should apply to the Chief Superintendent of the respective centre for their hall tickets.

Candidates appearing at centres where they are not known must be prepared to satisfy the Chief Superintendents of such centres as to their identity.

The Standard Barometer and Thermometers are read at 8 a.m., 10 a.m., 4 p.m. and 8 p.m., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The cistern of the Barometer is twenty-two feet above the level of the sea, and the receiver of the rain-gauge is two feet from ground. The wind, rain and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 7·70 inches, the average due for the same period being 8·20 inches.

CULTIVATION STATEMENT—1922-23.

The season in 1922-23 was better than the average in the Ceded, Kurnool, and Bellary. In the last two districts there was a fall in area sown as compared with the previous year. Sowings were restricted in Anantapur and Cuddapah. The area under wet crops in Nellore was less than in 1921-22. Sowings were satisfactory in Chingleput. In South Arcot, there was an increase in wet cultivation. Sowings of dry crops were restricted in Chittoor. The season was very favourable in North Arcot and Trichinopoly, favourable in Salem, and fairly favourable on the West Coast. Dry cultivation was retarded in the South but there were increased sowings of wet crops except in Tanjore where there was a slight contraction in the area sown.

On the whole, the area sown on dry lands in the Presidency in 1922-23 did not differ appreciably from the average and the area sown in 1921-22 but sowings on wet lands showed an increase.

2. Details by districts are given in the statement appended.
